7.2. Signature:

7.3. Job position of signatory : Rector

O.Brinkmanis

**8. Information about the system of higher education in Latvia**

Magistrs (master) degree (or the equivalent) is required for admission to doctoral studies. Doktors (Dr.) degree can be achieved at public defence of a doctoral thesis which may be a result of three to four years of full-time doctoral studies at a university or an equivalent amount of independent research while working at a university, research institution etc.

Latvian Council of Science appoints promotion councils and sets the procedures for awarding doctoral degrees.

**Credit point system.** Latvian credit point is defined as a one-week full-time study workload. An average workload of a full-time study year in most HE programmes is 40 CP. Latvian credit point system is compatible with ECTS. The number of ECTS credits is found by multiplying the number of Latvian credit points by a factor of 1.5.

**Grading system:** a 10-point grading scheme for knowledge assessment.

Achievement level	Grade	Meaning	Approx. ECTS grade
very high	10	izcili (with distinction)	A
	9	teicami (excellent)	A
high	8	ļoti labi (very good)	B
	7	labi (good)	C
medium	6	gandrīz labi (almost good)	D
	5	viduvēji (satisfactory)	E
	4	gandrīz viduvēji (almost satisfactory)	E/FX
low	3-1	negatīvs vērtējums (unsatisfactory)	Fail

It must pointed out that approximation with the ECTS scale is unofficial and cannot be used for official comparison with marks recorded in a Latvian education certificate or diploma.

**Quality assurance.** According to Latvian legislation, state-recognized degrees/diplomas may be awarded upon completion of an accredited programme in an accredited HE institution holding a state-approved Satversme (by-law). Quality assessment includes self-evaluation report by the higher education institution and peer evaluation. Evaluation teams consist of at least three experts, with only one from Latvia. In most cases the other two experts are selected from Western Europe or from the Baltic States. Decisions on programme accreditation are taken by the Accreditation Board, while those on institutional accreditation – by the Higher Education Council. The first accreditation cycle was completed in 2001. Recurrent assessments have to take place once every six years.
